

Bolgare, January 2021

Subject: PED (Pressure Equipment Directive 2014/68/EU)

With reference to the above Directive, in force since February 2016, We inform you that the filters on our catalogue, even if subject to the PED regulations, must not have the CE marking because all of them are included among the features and regulations of Art 4, paragraph 3 saying exactly:

“3. Pressure equipment and assembling below or equal to the limits set out in points (a), (b) and (c) of paragraph 1 and in paragraph 2 respectively shall be designed and manufactured in accordance with the sound engineering practice of a Member State in order to ensure safe use. Pressure equipment and assemblies shall be accompanied by adequate instructions for use.

Without prejudice to other applicable Union harmonisation legislation providing for its affixing, such equipment or assemblies shall not bear to CE marking referred to in Article 18”

The graph on the side indicates the areas and the features classifying the products subject to the above mentioned Article 4 paragraph 3, in case of equipments for liquids (N.B. group 2 of Art.13)

(i.e: pressure equipment in which $PS \times V < 10.000$, where PS is the max working pressure, in bar, of the equipment and V is its internal volume, in liters).

NOTA: le linee di demarcazione nella tabella indicano il limite superiore per ciascuna categoria
